Diversity | Boost Self-Esteem | Social Competency | Collaboration | Literacy | Numeracy

American Robotics Academy offers live online engineering classes for kids, conducted over video chat. We can help students continue learning at home by providing a safe, vetted, and fun classroom experience, led by highly qualified teachers. Let us help you to customize your child's learning. American Robotics Academy now offers a 45 min to 1-hour Educational Engineering Workshops. American Robotics Academy will ship sanitized kits for each 9-week program. Kit fees (Plus Shipping and Handling Fee) is included. Kit will be mailed or picked up at a specified location with the constraints and in compliance with the COVID19 measures for safety.
